Presents the

# 2019 SEASON OPENER

Cruiser Navigation Rally

March 2, 2019

This rally kicks off the season in SCCA cruiser navigation rallies. Held in the sheltered waters of the Long Beach Harbor, it provides the year's first opportunity for power cruiser skippers to check out their vessels and refresh their skills in this exciting navigational challenge. Long Beach Yacht Club invites all members of Southern California Cruiser Association Yacht Clubs to participate in this Cruiser Navigation Rally, previously known as a predicted log contest.

*The following is a reprint of an article written by SCCA S/C Tom Collins."*

## **EVOLUTION OF THE "SEASON OPENER"**

In 1947, a group of Cruiser Navigation skippers who had been competing under the Southern California Yachting Association (SCYA) met at Ciro's restaurant on Santa Monica Boulevard and organized the Southern California Cruiser Association (SCCA). The intent was to create a separate organization whose primary emphasis was on power cruiser navigation rallies rather than sailboat racing. King Brugman of Long Beach YC was named as the first Commodore. Subsequently the SCCA sanctioned a handful of rallies each year. That tradition has carried on for over 70 years.

The two Cruiser Navigation rallies that had been run during the SCYA's Midwinter and Midsummer Regattas remained with SCYA. They were the Brittain and the Donaldson contests, respectively. Later the Midsummer was dropped and the Donaldson trophy was moved to the Midwinter as the Class B trophy. The host club for the Midwinter log rally alternated yearly between California and Long Beach Yacht Clubs. The entry fee for sailboats in the Midwinter ranged from a couple of bucks for the smallest class of sailboats to a very substantial fee for the largest seventy-plus foot sailboats. In the mid seventies discontent arose when the entry fee for all the predicted loggers was set at the maximum charged for the largest sailboats.

After meetings between the SCYA and the SCCA failed to produce an acceptable resolution to the problem, SCCA withdrew from further participation in the SCYA Midwinter. A replacement contest needed to be created to fill the void in the schedule. Then LBYC fleet captain Arnold Cowan proposed the Season Opener and created the present trophy.

Interestingly, after the split, the Donaldson Trophy was retained by the SCCA and is now used for the first leg of the Long Beach to San Diego LBYC hosted Craig Rally.

The Season Opener Rally typically runs in the sheltered waters of the San Pedro Bay and is a relatively short course that can easily be navigated on a Saturday morning. Skippers usually tie up after the rally at the LBYC Long Dock for some enjoyable camaraderie. The Awards banquet Saturday evening is a favorite as skippers and crew get together to discuss the contest and catch up on happenings since the previous year's Season Closer. The LBYC Season Opener remains as one of the more popular rallies on the SCCA calendar.

## March 2 2019, LBYC Season Opener Rally - Easy Entry

A special feature of the LBYC Season Opener Cruiser Navigation Rally is the provision for Easy-Entry rally skippers to participate without the need to run a measured mile or to prepare and submit a predicted log. The course is just over fifteen-miles and it's all inside the Long Beach breakwater so you'll be running in sheltered water.

It's simple! All you need to do is attend the March 1 - Friday night LBYC Skipper's Meeting at 6:30 pm to give the Committee your intended speed, your normal cruise speed is usually best, and have a starting time assigned. Any questions you have will be answered and they'll even provide an observer if you need one. Saturday morning you'll go to the West Jetty of the marina entrance and start at your assigned time. Then follow the course instructions to navigate past the control points. Simply run the course at your stated speed as your observer records the time on the Actual Log when you pass the control points. You can use the speed readout on your GPS to adjust your throttle to maintain the speed you've chosen to run.

After your Log is turned in, the Committee will use the speed you choose to prepare a prediction for your boat. Then they'll compare that prediction with your actual times to figure your score.

It's that easy - Come on out and join in the fun!
